

## Organic vegetable farm job!

Olde Moon Farm is currently hiring one full time farm crew member for the 2022 season. It is a live-on-site seasonal position starting at the beginning of April to the end of October (Exact start/end date to be agreed upon with the incoming crew member) for 4 days of work per week, with potential for an additional day, if desired. For the right candidate, there is a possibility to run our market booth or CSA pickup. A great opportunity to learn lots of skills and to interface with our customer base!

Olde Moon Farm is a small diversified farm that grows Certified Organic vegetables for CSA, chefs and the Silverton Farmers Market. Crew members will participate in most aspects of the farm work, including (but not limited to) seeding, transplanting, irrigation, weeding, harvesting, packing and delivery. Strong work ethic, good physical fitness, attention to detail and a positive attitude will contribute to a successful farm season. In addition to a bustling farmstead, there are also chickens, sheep and bees that inhabit this space and there is also opportunity to work with the animals as well. There is also optional paid work doing various non-farm related tasks around the property - landscaping, general upkeep, grass mowing, etc (again not mandatory, but a flexible option if you want to make some extra cash and hone some skills!)

Although previous farm and garden experience isn't required, it is preferred; Regardless, it is required to possess a very strong interest and motivation to participate in a small working farm lifestyle. Gardeners, foodies, aspiring homesteaders are all encouraged to apply! In responding to this ad, please include work experience, hobbies, ambitions, favorite music, poems, stories... anything to give us a good idea of who you are!
